“We needed a In-Law addition to be added onto our home and time was of the essence. Being extremely cautious we interviewed a handful of contractors in order to make the right decision. We listened to their presentations , talked with them about our ideas and received their quotes for the project. After all was said and done , we were most comfortable hiring John Arnone of Arnone Building & Remodeling. “

“ As our project progressed we never had to worry or wonder when someone was going to show up to work because there was constant communication either in person , by telephone or via e-mail between ourselves and John. Our questions were always answered promptly and we always knew what was going to take place at any given day. We are happy to say that our project was started and completed on schedule as John had promised.

We highly recommend Arnone Building & Remodeling for any large or small home improvement project “ .

I contacted Arnone Building & Remodeling to install a tile backsplash in my kitchen. Mr. Arnone assisted in the design and determining amount of the various types of tiles to order, which turned out to be exactly what was needed. Mr. Arnone kept in contact throughout project. He arrived and completed the job as promised and left my house as clean as it was when he began the project. The tile was installed with perfection and with an eye for detail. I can recommend Mr. Arnone without hesitation and would certainly use him again for future projects. It is not that easy to find a contractor who delivers a quality project in a timely manner with a fair price.
